Dear Mr. Opalski and Ms Davidson:

On July 1, 2013, Oregon submitted its plan for meeting the three remaining management measures identified in the settlement of the Coastal Zone Act Reauthorization Amendments (CZARA) litigation. The Onsite Disposal System measure was one of those measures. The attached document is an updated version of the OSDS submittal. It includes new information on how Oregon will evaluate the effectiveness of its voluntary time-of-transfer inspection program. We believe that this additional information provides you with what you need to approve this measure.

Sincerely,

Dick Pedersen  
Director
